

# Divine Empowerment

Divine Empowerment last featured in *Kindred Spirit* in the summer of 2013. Since then the modality has gone from strength to strength. Founder **Antonia Harman** shares some of the profound breakthroughs

**O**ur cutting edge healing techniques are taught exclusively via our on-line classes. Students simply watch videos embedded with 'light technology' in the members' area. Viewing them literally awakens parts of the energy body that have been dormant for millennia. There is even an introductory level three day free trial, so you can try it out with no obligation. These abilities not only evolve you as an individual down the road to enlightenment, they also build skills that can really impact dis-ease, for the good of humanity.

The films on the Divine Empowerment site activate latent 'Super-Normal' abilities which have largely been forgotten. Magical, wondrous healing is now available to all by unlocking potential, simply by watching a video. I have done all the hard work for you, awakening my own system to make these techniques available in the easiest of ways. As computer technology has developed so has energy healing. Now is the time of 'The Quickening'. It's time to evolve. Time to 'work smarter, not harder'.

### What can we learn from the videos?

'The Big Eraser' on level 5 can literally erase deep seated emotional trauma in an instant. 'I have been a practicing psychotherapist for over a decade, and I have never seen a tool as effective as The Big Eraser at clearing specific emotional traumas. I was shocked. It left no trace. I nearly forgot the trauma ever happened,' says Dimitri Raftopoulos.

Emotion is simply energy, so can be dissolved in a single intention, instantly, the same goes for phobias too.

### What about physical healing?

For several years, Divine Empowerment students have been able to use the Flower Of Life to energetically reprogramme organs. This is especially clear when working on organs such as the small intestine or the adrenals, as they are most related to energy levels. The small intestine is responsible for 90% of the absorption of vitamins and minerals, so if it is poorly functioning, there is no fuel to power the rest of the body.

The adrenals are hormone factories producing adrenaline, cortisol etc. Using the Flower Of Life to reprogramme these organs means that energy levels sky rocket overnight. People go from zero to hero in a matter of hours.

The best way to understand how The Flower Of Life works is to think of it as binary coding in our organs, 01000100111. When we experience trauma during our lives, it disrupts the coding in our organs, causing them to become sluggish. Traumas can be electrical (so related to our nervous system), emotional, biochemical (toxins), structural (from broken bones to damaged cells) or spiritual. Distortions can also carry over from past lives and genetics. When the information is corrupted, the body has no way of correcting itself. The Divine Empowerment Flower Of Life literally alters the coding to bring organs back to their perfect energetic form as if the trauma never happened, often functioning better than ever before.

Combining these two techniques (Big Eraser and Flower Of Life) is an area we are currently exploring.

Illness, however mild or severe, is an indicator of your emotional state

LOUISE HAY

### What about disease?

'Illness however mild or severe is an indicator of your emotional state, caused by your thoughts and focus'. Louise Hay

If we erase trauma and re-programme organs to their optimal function, there is no-where for a 'dis-ease' to be in the body. Dis-ease appears due to emotional distress and will remain until the lesson is learnt. Erasing the trauma, karma and energetically repairing organs literally unravels disease.

We are having incredible success working on a whole range of diseases from Crohn's to autism, asthma, fatigue, psoriasis, depression, PTSD, and we are starting to look into cancer now too. The process is the same, no matter what the problem is. It's actually very simple to treat a whole range of issues. Level 4 students can instantly remove most food allergies and intolerances, while level 5 students can erase phobias and emotional trauma in an instant. Disease can take a few days to weeks; we are hoping to speed this up in Level 6, which is under development. **KS**
